trusted time-critical logistics across Europe

For more than 45 years, Ascent has helped customers overcome complex supply chain challenges through time-critical and direct logistics solutions across North America. Today, we're bringing that same expertise, reliability and customer-focused approach customers across to Europe.

Backed by 24/7/365 experts, deep industry knowledge and PEAK™ technology, we deliver the speed, visibility and control required to keep critical shipments moving.

Every shipment is proactively monitored from pickup through final delivery, with real-time visibility, exception management and recovery support designed to reduce risk, maintain continuity and drive ongoing service optimization.

Our Solutions

air charter

Dedicated aircraft for the most urgent shipments, providing maximum control, direct routing and immediate response.

on-board courier

A dedicated courier accompanies your shipment from origin to destination, ensuring continuous custody and the highest level of visibility.

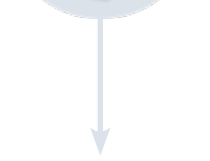

critical airfreight

Highest urgency airfreight with prioritized bookings, expedite handling and strong control/assurance with 1-3 days door-to-door transit time.

express airfreight

A balanced solution offering faster transit and enhanced priority handling while maintaining cost efficiency with 4-6 days door-to-door transit time.

standard airfreight

Reliable, cost-effective airfreight for routine international shipments with 7-9 days door-to-door transit time.

fast boat

A strategic alternative between air and ocean freight, offering faster transit than ocean at a lower cost than air and 99% service reliability.

Regional Presence. Global Reach.

With regional expertise and global resources, Ascent delivers responsive support and scalable logistics solutions across Europe and beyond. Our regional sales and operations teams are backed by a strong network of local and international providers and global control towers that provide 24/7/365 coordination and oversight.
